Where do we go from here?

CarePortal is a technology platform that connects vulnerable children and families to people who want to serve them. School staff and social workers uncover the needs. CarePortal makes local churches, businesses and individuals aware, giving them a real-time opportunity to respond and care for children in their own community.

- **How can we take our church's existing initiatives to a deeper level for a greater impact?**
- **What would be a next step in response to something new that God has stirred in your heart in this workshop?**

## Pray for God to do BIG THINGS

- ...by February 1<sup>st</sup>, we had a volunteer Mobilizing Team together to design a coordinated plan for equipping and mobilizing churches to serve the public schools? (Contact Sara if you are interested!)
- ...by March 1st, we had a group of churches trained and mobilized to start making a significant impact on the homelessness crisis in the schools?
- ...by the end of this school year, every principal in Clark County had received a call of encouragement from a local church?
- ...by the fall of next school year, every public school in Clark County had a church or group of churches ready to come alongside them in serving their staff, their kids, and their families?

By coming alongside schools to help carry their heavy burden, we have an opportunity to model God's sacrificial love to a broken world.

*“I can't carry it for you...  
but I can carry you.”*
